## PERSONAL STATEMENT

I am final year student at Leeds Beckett University currently studying Creative Media Technology (module average grade 1<sup>st</sup>). I have been employed in a number of positions alongside my studies where I have developed transferable skills such as team-work, responsibility and customer service. During my degree studies I have excelled in design and motion which resulted in a number of first-class marks in modules like short story, motion design, web development and many design related modules. I am looking to expand my knowledge of the creative industries and pursue a career out of my comfort zone so that I can continue to develop and build on my technical skills. My passion for the creativity motivates me to become a multi-media designer.

---
